

ENERGY

Energy is the ability to do work such as lighting, moving, heating and cooking

SOURCES OF ENERGY:-

RENEWABLE ENERGY:-

These are forms of energy that can be regenerated, such as Sun power, Wind power, Water power and Geothermal power

Wind power

Hydropower

Solar Energy

NON-RENEWABLE ENERGY:-

Forms of energy that can be exhausted such as wood fuel, crude oil and coal

Wood Fuel

Coal

Crude Oil

THINGS TO DO TO SAVE ENERGY

- Use energy saving jikos.
- Use renewable sources of energy sustainably.
- Plant trees to establish woodlots
- Practice energy saving habits

● Energy Saving Jiko

● Plant Trees

● Biogas

● Energy Saving habits

POSSIBLE RESPONSES TO ENERGY CRISIS IN KENYA

- Enact Legislation that favour exploitation of renewable sources of energy.
- Encourage and reward innovations that promote sustainable energy utilization.
- Adopt Education for Sustainable Development to promote energy conservation initiatives in schools and local communities
